

Meritor Part

Meritor Part - The Meritor Company is a premier global dealer built upon one hundred years of custom of quality and service. Meritor specializes in integrated systems with several modules and parts to the original machine makers and aftermarket equipment within the industrial and transportation trades.

Meritor values the wishes of all their clients to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their worldwide operations. Meritor begins with a culture that values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than eleven thousand two hundred people, Meritor encourages collaboration and innovation amongst a team of knowledgeable professionals.

By just employing future focused staff, Meritor strongly feels these top-caliber individuals will be able to quickly get used to to changing surroundings and demonstrate the commitment and performance considered necessary to be able to achieve results in the competitive materials handling business. The business empowers their teams to make sound business decisions so as to enhance the overall success of the business. In return, Meritor provides all of their workers different opportunities for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering which comprise drivelines, axles, suspension and braking systems meant for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is also responsible for supporting the needs of all their global engineering employees.

The Quality team at Meritor is a dynamic and customer-focused group that is devoted to ensuring optimum development at their aftermarket distribution facilities and production plant which are located on 5 continents and in 19 countries.

The supplier development network is specifically located in order to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within every aspect of the trade. The DFSS or likewise referred to as Design for Six Sigma ensures product reliability in each region. The team is also comprised of transactional Green Belts who make use of Six Sigma tools to business methods and implement lean methods.
