

Concrete Hoppers

Concrete Hopper - This particular attachment is a self-dumping hopper that automatically sets off to unload when bumper release contacts the side of a dumpster. As soon as dumping is completed, the hopper returns to a locked and upright position. This piece of equipment is even accessible with a cable that enables operation from the seat of the forklift so as to have the option of manually dumping the hopper. There is a locking chain provided in order to lock the hopper to the tine truck. This product is constructed with reliable and consistent robotic welds for maximum strength. The forklift dumping hopper likewise has a blue powder coat finish so as to maintain durability.
