Clark has a extraordinary Parts Distribution team. The items warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Worldwide, Clark has one of the most amazing supplier support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the material handling industry.

Clark proudly remains an innovative leader of the material handling industry, pioneering safety features such as the operator restraint system. This exceptional dedication to safety is currently a customary feature on every lift truck.

Clark's continual goal to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the globally approved quality standard ISO 9001 for all of their production plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental restrictions, thus placing them in a dominant market position.

Clark has selected the structure of "Lean Manufacturing" at all of its assembly plants because this method is extremely economical and permits minimal use of resources. Established to guarantee maximum efficiency, this system is designed to discover and acknowledge the most effective methods for manufacturing facility management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working together, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The contemporary value engineering agenda combines modern product improvement and provides superior client support and service within the industry.
